Geschichte und Entwicklung

- 1996 - Jörg Janke publishes Compire
- September 2006 – Founding friendly fork „Adempiere“
- November 2006 – ADempiere 3.1.1
 - 100% GPL-conformity
 - PostgreSQL and Oracle XE
 - FreePDF and Tango Icons
- May 2007 – Adempiere 3.2.0 „MayDay Edition“
 - Stable Release
 - > 400 Bug Fixes
- March 2008 – Adempiere 3.4 „Emily“ - Stable Release
 - Further Stabilization
 - Minor features
- Current: Development Branch 3.5 Libero (feature freeze)
 - Production Planning
 - Payroll

Why Adempiere is really „free“

- „ADempiere Bazaar“
 - Open Source not only as licence but as development model
 - „The cathedral and the bazaar“

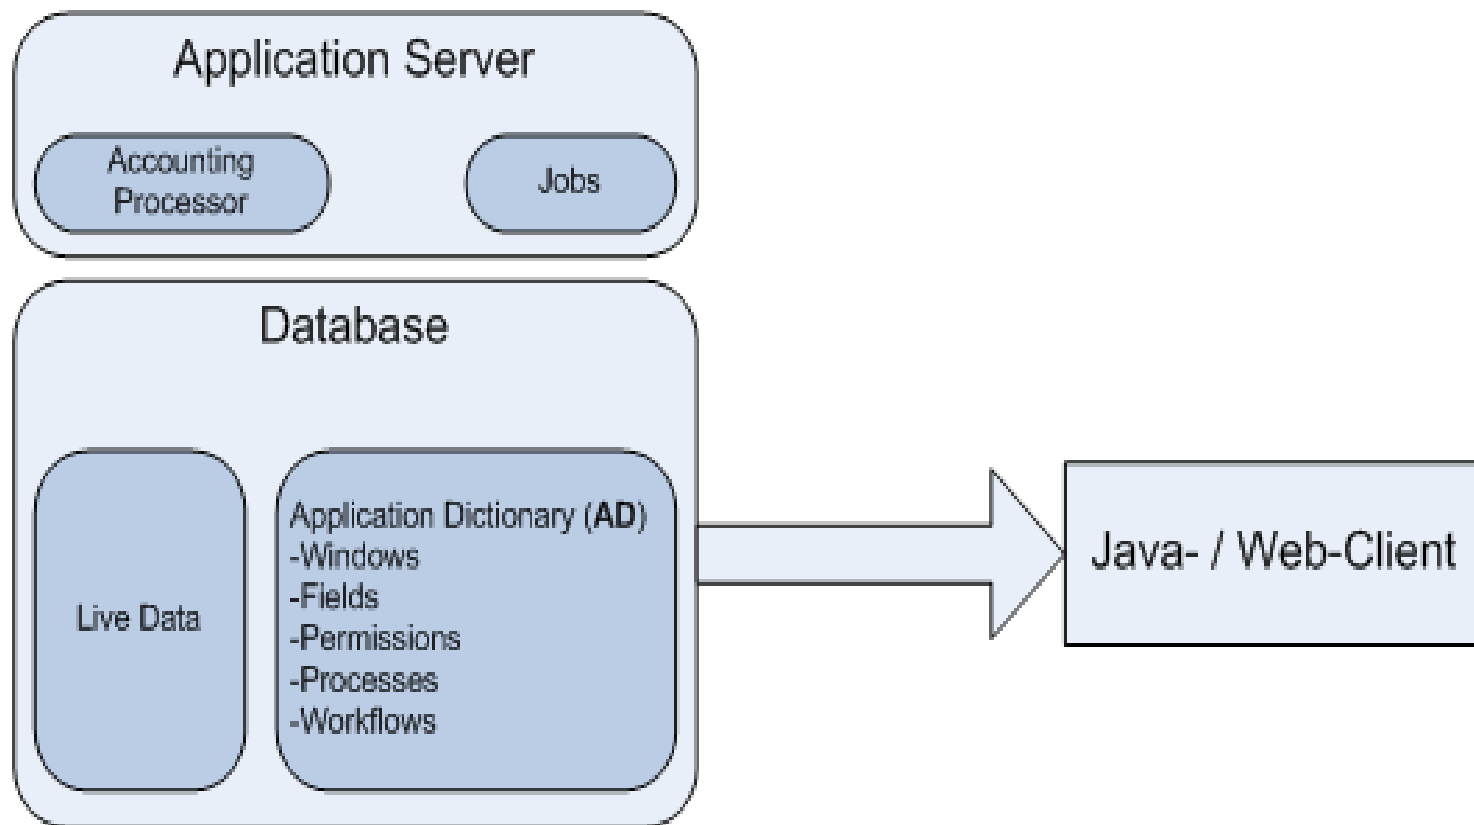

- Project is community-driven
 - Not a single organization pushes the project but the community in a democratic way
 - Committers (Service Providers / Developers) can touch core according to rules

- ADempiere-Community consists of
 - Parts of the former Compiere Community
 - Newbies
 - Other, former Compiere-Forks

Activity

- One of the most active projects at SourceForge (Top 10)
- 70 developers
- Why is project activity so important?
 - Better free support
 - More frequent updates
 - Fast bugfixes
 - Ensures long term survival of the project
 - Higher Quality due to more testing
- 100% Open Source
 - GPL license
 - Bazaar Modell
 - Independent due to multiple maintainers
 - No investment capital or third party influence

Benefits for Endusers

- ERP-System with Enterprise Features that scales
- No licence or support fees at all
- Experienced Service Providers available
- Updates at no cost
- Adapting the application to your needs
- Customizations are being stored within the Application Dictionary and remain persistent (maintains upgradability)
- Independency from vendor (non existent) and free to choose service provider

Opening Business

Vision of ADempiere

“To become the Linux of business applications”

Information Is Free ...
